Special Issue

Bound States in the Continuum in Photonics, Plasmonics, and Terahertz Technology

Message from the Guest Editors

The Special Issue aims to present cutting-edge research on the fundamentals and applications of BICs in photonics, plasmonics, and terahertz technology. We welcome broad, visionary contributions of original research articles and review papers. We are glad to invite researchers to submit their contributions to this Special Issue. Topics include, but are not limited to, the following:

- bound states in the continuum
- optical field enhancement
- light-matter interaction
- polarization manipulation
- metamaterial
- nonlinear effect
- photonic device
- plasmonic device
- terahertz device

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Photonics* (ISSN 2304-6732). *Photonics* is an online open access journal covering both the fundamental and applications of optics and photonics. *Photonics* strives to provide an avenue to allow authors to disseminate their scientific findings—both theoretical/ simulations and experimental works—in highly accessible peerreviewed journal publications. The manuscript in *Photonics* will be handled with quick turnaround production processing time. We welcome authors to submit their manuscripts for publications in *Photonics*. Our goal in *Photonics* is to enable fast dissemination of high impact works to the scientific community.

Editor-in-Chief

Prof. Dr. Nelson Tansu

School of Electrical and Electronic Engineering (EEE), The University of Adelaide, Adelaide, SA 5005, Australia

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q2 (Instrumentation)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.8 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
