

Special Issue

Optical Measurement Systems and Instruments

Message from the Guest Editors

Optical measurement systems and instruments are playing a more and more important role in current scientific research and engineering applications due to their high accuracy. This Special Issue invites manuscripts that introduce the recent advances in “Optical measurement systems and instruments”. All theoretical, numerical, and experimental papers are welcome. Topics include, but are not limited to, the following:

- Magnetic field measurement technology and instrument based on optical principle
- Optical fiber stress and strain measurement system and instrument
- Optical refractive index measurement system and instrument
- Optical angular velocity/acceleration measuring instrument
- Application and instrument of special optical fiber technology
- Improvement technology for environmental adaptability of optical measurement system and instrument
- Optical scanning system and instrument
- High-power optical fiber transmission technology and instrument
- Optical non-contact measuring system and instrument
- Optical navigation system and instrument

Guest Editors

Prof. Dr. Dengwei Zhang
Dr. Heming Wei
Dr. Cui Liang

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Photonics* (ISSN 2304-6732). *Photonics* is an online open access journal covering both the fundamental and applications of optics and photonics. *Photonics* strives to provide an avenue to allow authors to disseminate their scientific findings—both theoretical/ simulations and experimental works—in highly accessible peer-reviewed journal publications. The manuscript in *Photonics* will be handled with quick turnaround production processing time. We welcome authors to submit their manuscripts for publications in *Photonics*. Our goal in *Photonics* is to enable fast dissemination of high impact works to the scientific community.

Editor-in-Chief

Prof. Dr. Nelson Tansu

School of Electrical and Electronic Engineering (EEE), The University of Adelaide, Adelaide, SA 5005, Australia

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q2 (Instrumentation)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.8 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
