Recent Advances in Optical Metrology

Message from the Guest Editors

With the advances in scientific and technological development, optical metrology has been widely applied in various applications such as industrial inspection, biomedical imaging, experimental mechanics, smart agriculture, and consumer entertainment. Based on the hardware devices and working principles, optical metrology can be divided into numerous different types: structure light, laser interferometry, holographic interferometry, digital holography, stereo vision, time of flight, etc. In recent years, many scholars have developed various advanced techniques for optical metrology and applied these advanced techniques into new application scenarios. This Special Issue focuses on, but is not limited to, the most up-to-date optical metrology and their applications.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Photonics* (ISSN 2304-6732). *Photonics* is an online open access journal covering both the fundamental and applications of optics and photonics. *Photonics* strives to provide an avenue to allow authors to disseminate their scientific findings—both theoretical/ simulations and experimental works—in highly accessible peer-reviewed journal publications. The manuscript in *Photonics* will be handled with quick turnaround production processing time. We welcome authors to submit their manuscripts for publications in *Photonics*. Our goal in *Photonics* is to enable fast dissemination of high impact works to the scientific community.

Editor-in-Chief

Prof. Dr. Nelson Tansu

School of Electrical and Electronic Engineering (EEE), The University of Adelaide, Adelaide, SA 5005, Australia

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q2 (Instrumentation)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.8 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
