

Special Issue

Free-Space Optical Communication and Networking Technology

Message from the Guest Editor

This Special Issue aims to foster discussions on the related technologies of FSOCs, enabling researchers to gain a better understanding of the objectives that promote the advancement of FSOC technology. We welcome high-quality submissions related, but not limited, to the following topics:

- Present and future optical wireless communication terminals, systems and links;
- Atmospheric propagation, transmission effects and compensation techniques;
- Adaptive optics, modulation, demodulation, coding and decoding technologies;
- Advanced optical signal processing technologies;
- Optical communication ad hoc networks and network topologies;
- Visible-light and underwater optical communication technologies.

Researchers are encouraged to submit complete unpublished papers with their contributions, exploring emerging technologies toward optical wireless communication.

Guest Editor

Prof. Dr. Zhi Liu

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Photonics* (ISSN 2304-6732). *Photonics* is an online open access journal covering both the fundamental and applications of optics and photonics. *Photonics* strives to provide an avenue to allow authors to disseminate their scientific findings—both theoretical/ simulations and experimental works—in highly accessible peer-reviewed journal publications. The manuscript in *Photonics* will be handled with quick turnaround production processing time. We welcome authors to submit their manuscripts for publications in *Photonics*. Our goal in *Photonics* is to enable fast dissemination of high impact works to the scientific community.

Editor-in-Chief

Prof. Dr. Nelson Tansu

School of Electrical and Electronic Engineering (EEE), The University of Adelaide, Adelaide, SA 5005, Australia

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q2 (Instrumentation)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.8 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
