

## Special Issue

# Adaptive Optics Imaging: Science and Applications

### Message from the Guest Editors

Adaptive optics (AO) is an area of interdisciplinary study integrating the technology of light, machine, electricity, heat, computer, control and other subjects. We are delighted to announce a call for papers for our upcoming Special Issue on “Adaptive Optics Imaging: Science and Applications” in *Photonics*. This issue aims to explore recent developments, current practices, and future trends in adaptive optics and its related fields. Adaptive optics systems and components have now reached a level of sophistication and simplicity that extends beyond traditional astronomical applications. They are being increasingly utilized in a wide range of areas, including biology, medicine, manufacturing, communications, ophthalmology, vision science, microscopy, high-energy beam control, and more. These advancements have opened up numerous exciting possibilities. Notably, adaptive optics has found significant applications in domains such as laser communication systems, microscopy, and retinal imaging systems.

### Guest Editors

Dr. Yukun Wang

Changchun Institute of Optics, Fine Mechanics and Physics, Chinese Academy of Sciences, Changchun, China

Prof. Dr. Quanquan Mu

University of Chinese Academy of Sciences, Beijing, China

Prof. Dr. Lifa Hu

School of Science, Jiangnan University, Wuxi 214122, China

### Deadline for manuscript submissions

closed (15 July 2025)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Photonics* (ISSN 2304-6732). *Photonics* is an online open access journal covering both the fundamental and applications of optics and photonics. *Photonics* strives to provide an avenue to allow authors to disseminate their scientific findings—both theoretical/ simulations and experimental works—in highly accessible peer-reviewed journal publications. The manuscript in *Photonics* will be handled with quick turnaround production processing time. We welcome authors to submit their manuscripts for publications in *Photonics*. Our goal in *Photonics* is to enable fast dissemination of high impact works to the scientific community.

---

### Editor-in-Chief

Prof. Dr. Nelson Tansu

School of Electrical and Electronic Engineering (EEE), The University of Adelaide, Adelaide, SA 5005, Australia

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q2 (Instrumentation)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.8 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
