

## Special Issue

# State-of-the-Art Optical Communication in China

### Message from the Guest Editor

Due to the rapid emergence of data-hungry services such as ultra-high-definition (UHD) video streaming, online video gaming, virtual/augmented/extended reality (VR/AR/XR), Industry 4.0 and Internet of things (IoT) in recent years, the demand for high-speed communication is continuously increasing. Among various communication technologies, optical communication has been widely recognized as a promising solution. This Special Issue focuses on the state-of-the-art optical communication technologies in China, which covers all aspects of optical communication including optical fiber communication, optical wireless communication, optical networking, visible light communication, visible light positioning, radio-over-fiber, microwave and THz photonics, digital signal processing and machine learning techniques for optical communication, etc.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Photonics* (ISSN 2304-6732). *Photonics* is an online open access journal covering both the fundamental and applications of optics and photonics. *Photonics* strives to provide an avenue to allow authors to disseminate their scientific findings—both theoretical/ simulations and experimental works—in highly accessible peer-reviewed journal publications. The manuscript in *Photonics* will be handled with quick turnaround production processing time. We welcome authors to submit their manuscripts for publications in *Photonics*. Our goal in *Photonics* is to enable fast dissemination of high impact works to the scientific community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q2 (Instrumentation)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the second half of 2025).
