

Special Issue

Precision Physics and Fundamental Physical Constants (FFK 2023)

Message from the Guest Editors

In this Special Issue, selected papers from the International Conference on Precision Physics and Fundamental Physical Constants (FFK 2023, <https://indico.cern.ch/event/1164804/>, 22–26 May 2023) are presented. FFK 2023 followed the rich traditions of the previous seminars and conferences, covering the recent progress in the field. The presentations spanned a wide range of topics, from classical metrology; the realisation of the kilogramme, through precision spectroscopy of electronic and exotic atoms; as well as molecules to determine masses and magnetic moments of elementary particles; electric dipole measurements; and mass measurements to particle physics aspects such as precision measurements of the neutron, the CKM matrix, recent developments in the theory of muon $g-2$, and collider searches for beyond-the-standard-model physics. FFK 2023 was endorsed by CODATA Task group on fundamental constants. Although this Special Issue collaborates with the International Conference on Precision Physics and Fundamental Physical Constants (FFK 2023), all relevant manuscripts are welcome, including research and review articles.

Guest Editors

Dr. Savely G. Karshenboim

1. Department of Physics, Ludwig-Maximilians-Universität München, Schellingstraße 4, 80799 Munich, Germany

2. Max-Planck-Institut für Quantenoptik, Hans-Kopfermann-Str. 1, 85748 Garching, Germany

Prof. Dr. Eberhard Widmann

Stefan Meyer Institute for Subatomic Physics, Austrian Academy of Sciences, Kegelgasse 27, 1030 Vienna, Austria

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Physics plays a crucial role in our understanding of the world and is of huge significance for the development of other sciences. This ensures that physics is always attracting heightened attention and is at the center of human interest. *Physics* is devoted to all aspects of physics and looks into news and progress of modern physics, seeking new horizons and future discoveries. The journal aims to provide an advanced forum for discussion of contemporary problems in physics and its development.

Editor-in-Chief

Prof. Dr. Edward Sarkisyan-Grinbaum

1. Experimental Physics Department, CERN, 1211 Geneva 23,
Switzerland

2. Department of Physics, The University of Texas at Arlington,
Arlington, TX 76019, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, INSPIRE, Astrophysics Data System, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 37.8 days after submission; acceptance to publication is undertaken in 34.2 days (median values for papers published in this journal in the second half of 2025).
