

Special Issue

A Themed Issue in Honor of Professor Viktor Dodonov—55 Years in Quantum Physics

Message from the Guest Editors

Celebrating the 55 years journey of Viktor Dodonov through the Quantum World, we invite all colleagues to submit papers related to the following large areas where Viktor made significant contributions:

- Dynamical Casimir Effect and quantum systems with moving (nonstationary) boundaries;
- Time-dependent quantum invariants and their applications;
- Uncertainty relations, their generalizations, and applications;
- "Nonclassical" states in quantum optics, quantum information, and other areas;
- Quantum particles in magnetic fields;
- Motion (evolution) of quantum packets;
- Dynamics of closed and open quantum systems;
- Master equations and their solutions;
- Adiabatic and fast dynamics;
- Jaynes-Cummings model, its generalizations and applications;
- Wigner function and quantum dynamics in phase space;
- Nonlinear generalizations of the Schroedinger equation;
- Decoherence, damping, relaxation, and thermalization in quantum systems;
- Quantum systems with time-dependent parameters.

Guest Editors

Prof. Dr. Andrei Klimov

Departamento de Física, Universidad de Guadalajara, Guadalajara 44420, Jalisco, Mexico

Prof. Dr. Luis L. Sánchez-Soto

Departamento de Óptica, Facultad de Física, Universidad Complutense, 28040 Madrid, Spain

Deadline for manuscript submissions

closed (31 December 2025)

About the Journal

Message from the Editor-in-Chief

Physics plays a crucial role in our understanding of the world and is of huge significance for the development of other sciences. This ensures that physics is always attracting heightened attention and is at the center of human interest. *Physics* is devoted to all aspects of physics and looks into news and progress of modern physics, seeking new horizons and future discoveries. The journal aims to provide an advanced forum for discussion of contemporary problems in physics and its development.

Editor-in-Chief

Prof. Dr. Edward Sarkisyan-Grinbaum

1. Experimental Physics Department, CERN, 1211 Geneva 23,
Switzerland

2. Department of Physics, The University of Texas at Arlington,
Arlington, TX 76019, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, INSPIRE, Astrophysics Data System, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 37.8 days after submission; acceptance to publication is undertaken in 34.2 days (median values for papers published in this journal in the second half of 2025).
