submissions:

closed (20 January 2025)

Message from the Guest Editor

Dear Colleagues,

We are pleased to invite you to submit short communications, research articles, or reviews to the Special Issue of *Plants* entitled “Plant Proteomics 2024”.

Proteomics has established itself as an indispensable technique for unraveling the complex mechanisms underlying plant life. In particular, plant proteomics offers profound insights not only into fundamental biological processes but also into practical applications in plant biotechnology. This Special Issue aims to highlight the applications and potential of proteomics in plant biology and biotechnology, promoting innovation and sustainable solutions within the contexts of agriculture and environmental management.

Dr. Vanildo Silveira

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
