Cereal Crop Breeding

Guest Editors:

Dr. Jindong Liu
National Wheat Improvement Centre, Institute of Crop Sciences, Chinese Academy of Agricultural Sciences, Beijing 100081, China

Dr. Yamei Wang
School of Agriculture, Sun Yat-sen University, Guangzhou, China

Dr. Yingjun Zhang
Institute of Cereal and Oil Crops, Hebei Academy of Agriculture and Forestry Sciences, Shijiazhuang, China

Deadline for manuscript submissions:
closed (31 December 2023)

Message from the Guest Editors

1. Genetic analysis to uncover the complex quantitative traits (particularly, quality and resistance to biotic and abiotic stress).
2. The MAS breeding, genomic selection/prediction and molecular design breeding for cereal crops.
3. The new data from traditional agronomic breeding methods and the quality of grain production.
4. The domestication and selection signatures for cereal crops.
5. Identifying the desired allelic variants or breeding available haplotypes.
6. The technological advances in molecular breeding.

Special Issue

Editor-in-Chief

Prof. Dr. Dilantha Fernando
Department of Plant Science,
University of Manitoba, Winnipeg,
MB R3T 2N2, Canada

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided.
We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
