Message from the Collection Editor

Dear Colleagues,

This Topical Collection aims to highlight recent advancements in fundamental and applied research in plant science, delivered by Italian scientists. We invite original Research Articles, Short Communications and Systematic Reviews in all fields of plant biology. Topics include, but are not limited to:

- Plant genetics and genomics
- Plant breeding
- Plant physiology
- Development and morphogenesis
- Reproduction
- Stress resistance
- Plant pathology
- Plant nutrition
- Crop production
- Food quality
- New breeding techniques
- Plant biotechnology

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Dilantha Fernando
Department of Plant Science,
University of Manitoba, Winnipeg,
MB R3T 2N2, Canada

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
