Plants Viroid/Viruses: Insight into Genome and Epidemiology

Guest Editor:

Dr. Ajay Kumar Mishra

Khalifa Centre for Genetic Engineering & Biotechnology, United Arab Emirates University, Al Ain P.O. Box 1555, United Arab Emirates

Deadline for manuscript submissions: closed (31 August 2022)

Message from the Guest Editor

In this special issue, we aim to cover the virus or viroidassociated plant diseases and their impact on crop production, recent knowledge in virus or viroid pathogenicity, transport, transmission, effective control strategies, diagnostic techniques, plant resistances against viruses/viroids, crop improvement programs and global transcriptome or proteome or metabolome, transcription factors, small or long non-coding RNA profiling in response to virus or viroid infection. I cordially invite viroid/virus community researchers to contribute their discoveries and thoughts as a research article or review in this special issue.

Editor-in-Chief

Prof. Dr. Dilantha Fernando

Department of Plant Science, University of Manitoba, Winnipeg, MB R3T 2N2, Canada

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Plant Science)
