Faculty of Textile Science and  
Technology, Shinshu University,  
Matsumoto, Japan

**Dr. Nobuyuki Uozumi**

Department of Biomolecular  
Engineering, Tohoku University  
Sendai 980-8579, Japan

Deadline for manuscript  
submissions:

**closed (31 August 2018)**

### Message from the Guest Editors

Dear Colleagues,

The threat of soil salinization on crop production has been increasing in association with global climate change. An increase in salt concentrations in the rhizosphere gives rise to salt stress, which seriously reduces the growth and productivity of glycophytic plants.  $\text{Na}^+$  and  $\text{Cl}^-$  are the major toxic ions during salt stress. Therefore, to uncover the mechanisms of salt tolerance in plants, understanding transport and distribution systems and homeostatic mechanisms, for not only  $\text{Na}^+$ , but also  $\text{Cl}^-$ ,  $\text{K}^+$  and water, is important. For this Special Issue of the journal *Plants*, we seek novel findings and the latest updates regarding plant salt tolerance, broadly, from molecular physiological studies to breeding and genetics.

## Editor-in-Chief

### **Prof. Dr. Dilantha Fernando**

Department of Plant Science,  
University of Manitoba, Winnipeg,  
MB R3T 2N2, Canada

## Message from the Editor-in-Chief

*Plants* is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Plant Sciences*) / CiteScore - Q1 (*Plant Science*)
