Technology, Campus da
Caparica, NOVA University of
Lisbon, 2829-516 Caparica,
Portugal

Prof. Dr. Maria Manuela Silva
ESE Almeida Garrett, ESEAG -
COFAC, Lisboa, Portugal

Deadline for manuscript
submissions:
closed (10 September 2022)

Message from the Guest Editors

Additives perform a variety of useful functions, providing many of the technological, aesthetic and convenient benefits that additives provide. In this context, additives can maintain or improve safety and freshness, nutritional properties, taste, texture and appearance. Yet, food additives are strictly studied, regulated and monitored, since evidence is required to ensure their safety for human health.

In this framework, this Special Issue intends to collate and share the collective knowledge regarding food additives of vegetable origin, considering the chemical characteristics, technological applications of processed food products and side effects on human health.

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
