Message from the Collection Editors

Dear Colleagues,

We pleased to announce that, we are launching a Topical Collection of *Plants* entitled “Plant, Algae, and Lichen Response to Abiotic Stress: From Molecules to Ecosystems”.

We would be delighted to receive your authoritative contribution, and we look forward to working together to collect high-quality research articles, and review articles in all the fields related to the above topic.

Since the aim of this Topical Collection is to illustrate, through selected works, frontier research in "Plant, Algae, and Lichen Response to Abiotic Stress: From Molecules to Ecosystems", we encourage Editorial Board Members of our Section to contribute by sending papers reflecting the latest progress in their research field, or to invite relevant experts and colleagues to do so.

an Open Access Journal by MDPI

Editor-in-Chief

University of Manitoba, Winnipeg,
MB R3T 2N2, Canada

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
