Bijenička c. 54, 10000 Zagreb,
Croatia

Message from the Guest Editor

Plants will publish a Special Issue called “Plant Polyphenols—From Plants to Human Health”. Polyphenols, as a big group of specialized metabolites, play important roles in plant growth, development, and plant–environment interactions. On the other hand, they show beneficiary effects to human health.

Deadline for manuscript

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Plant Sciences*) / CiteScore - Q1 (*Plant Science*)
