

Special Issue

10th Anniversary of *Plants*— Recent Advances and Perspectives

Message from the Guest Editors

Published for the first time in 2012, *Plants* will celebrate its 10th anniversary. When the inaugural issue was launched, *Plants* had already published nearly 3500 papers and reflected the diversity and richness of research in the field of Plant science. To mark this significant milestone and celebrate the achievements made throughout the years, we intend to publish a Special Issue entitled "10th Anniversary of *Plants*—Recent Advances and Perspectives". In parallel with the development of our journal, great success, too, has been recorded across the field of Plant science itself, from the molecular to the ecosystem level, and many new findings are based on new methodological approaches. For these reasons, we want to realize a Special Issue to honor the collective efforts of all those who have contributed so far to the the success of the journal and the gathering of scientific aspects in Plant sciences related to current challenges and future innovation.

Guest Editors

Dr. Milan Stankovic
Prof. Dr. Paula Baptista
Prof. Dr. Petronia Carillo

About the Journal

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, and conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Editor-in-Chief

Prof. Dr. Dilantha Fernando
Department of Plant Science, University of Manitoba, Winnipeg, MB
R3T 2N2, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
