

Special Issue

Advanced Botanical Research in the Mediterranean Area: Studies in Honor of Prof. Francesco Maria Raimondo on the Occasion of His 80th Birthday

Message from the Guest Editors

This Special Issue is a collection of botanical articles published in honor of Professor Francesco Maria Raimondo to celebrate his 80th birthday and his activity in the field of botany. There will be a collection of contributions from scholars and colleagues who know and often collaborate with him on different aspects of botany in the Mediterranean area. Flora is one of Raimondo's major scientific interests, which was investigated by him from the points of view of systematics, chorology, phytogeography and ecology; in particular, he has discovered and described new Mediterranean species. Other research carried out by Prof. Raimondo has been related to the biodiversity of different taxonomic groups in the Mediterranean area, with particular regard for Mountain vegetation, wetlands, cartography, geobotany, ornamental flora of parks and gardens, phytochemistry, etc. This Special Issue will include all of these aspects of the most advanced botanical research in the Mediterranean Area.

About the Journal

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Editor-in-Chief

Prof. Dr. Dilantha Fernando

Department of Plant Science, University of Manitoba, Winnipeg, MB
R3T 2N2, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
