

Special Issue

Molecular Biology of Plant Growth and Development

Message from the Guest Editors

The normal growth and development of plants are affected by their various external environments. Plants have evolved to have significant developmental plasticity to ensure their continuous adaptation to the dynamic environment. In recent years, research has rapidly advanced our understanding of the molecular biology of these processes. This Special Issue on the molecular biology of plant growth and development aims to showcase our current understanding of this area with a collection of high-quality papers uncovering the molecular and biochemical mechanisms of plant growth and development. In addition, research articles related to improving crop yields and review articles on plant growth and development are also welcome.

Guest Editors

Prof. Dr. Yinghua Su

State Key Laboratory of Crop Biology, College of Life Sciences, Shandong Agricultural University, Tai'an 271018, China

Prof. Dr. Riccardo Di Mambro

About the Journal

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, and conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Editor-in-Chief

Prof. Dr. Dilantha Fernando
Department of Plant Science, University of Manitoba, Winnipeg, MB
R3T 2N2, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
