Global Environmental Change and Plant Nutrition

Message from the Guest Editors

The impacts of ongoing global environmental change (GEC) on plants, including plant nutrient relations (or nutrition), are of great interest to both scientists and the broader public. Much of the recent research on GEC and plant nutrition has focused on the effects of elevated carbon dioxide (eCO₂) levels on the concentration of nutrients in plant tissue, with less research on other GEC factors or their interactions with eCO₂. In this Special Issue, we focus on the less studied aspects of GEC and plant nutrition, including the effects on nutrient uptake, assimilation, transport, and use, as well as nutrient concentration in plant tissues.

Guest Editors

Prof. Dr. Scott Alan Heckathorn

Department of Environmental Sciences, University of Toledo, Toledo, OH 43606, USA

Dr. Dileepa Jayawardena

Department of Plant, Soil and Microbial Sciences, Michigan State University, East Lansing, MI, USA

Deadline for manuscript submissions

31 January 2026

About the Journal

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Editor-in-Chief

Prof. Dr. Dilantha Fernando
Department of Plant Science, University of Manitoba, Winnipeg, MB
R3T 2N2, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
