

Special Issue

Nanotechnology in Plant Science

Message from the Guest Editor

Plant nanotechnology is a rapidly evolving field and has several applications in agriculture and plant biology. The Special Issue will welcome original reviews, short communications, and research articles. The submissions should be focused on (but are not limited to) the following topics:

- Enhanced nutrient delivery using nanotechnology.
- Nanotechnology for pest and disease control.
- Plant imaging and diagnosis using nanotools.
- Improved plant breeding and genetic engineering.
- Nanotechnology in abiotic stress tolerance.

Guest Editor

Prof. Dr. Ulhas Sopanrao Kadam

Plant Molecular Biology and Biotechnology Research Center (PMBBRC), Division of Life Science and Division of Applied Life Science (BK21 Four), Gyeongsang National University, Jinju-daero, Jinju, Gyeongnam, Republic of Korea

Deadline for manuscript submissions

closed (31 January 2024)

About the Journal

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Editor-in-Chief

Prof. Dr. Dilantha Fernando
Department of Plant Science, University of Manitoba, Winnipeg, MB
R3T 2N2, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
