

Special Issue

Ethnobotany and Botany in the Euro-Mediterranean Region

Message from the Guest Editor

The Euro-Mediterranean region, a biodiversity hotspot, is an ecological and cultural nexus connecting Europe, North Africa, and the Near East. This Special Issue aims to explore the dynamic interactions between plants, cultures, and ecosystems in this species-rich and diverse area. Covering both botanical research and traditional ethnobotanical knowledge, it emphasizes the ecological understanding and historical significance of plant use, conservation, and cultural practices across the region. This Special Issue also underscores the critical importance of documenting and preserving traditional knowledge in the face of urbanization, globalization, and environmental pressures.

Contributions (original research papers, perspectives, hypotheses, opinions, and reviews) on topics such as floristic knowledge, vegetation characteristics, taxonomy, the conservation of wild and cultivated species, the impacts of climate change on flora and vegetation, and the traditional uses of medicinal and edible plants are most welcome.

About the Journal

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Editor-in-Chief

Prof. Dr. Dilantha Fernando
Department of Plant Science, University of Manitoba, Winnipeg, MB
R3T 2N2, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
