

Special Issue

Plants with Nutritional and Medicinal Uses: Their Applications and Value Addition in Achieving UN SDGs

Message from the Guest Editor

This Special Issue invites submissions of manuscripts relating to the applications of plants and their constituents, as well as valuable additions for meeting the UN SDGs (e.g., 1, 2, 3, and 13). The Special Issue is particularly concerned with how plants can be explored for ending poverty, achieving a zero-hunger goal, ensuring good health and wellbeing, contributing to the responsible consumption and production of foods, combating climate action, and sustaining life on land, as well as halting biodiversity loss. We welcome studies focusing on the documentation of the indigenous knowledge associated with the use of plants for health and nutritional purposes, biological efficacies, phytochemical profiling, safety assessments, value addition and enhancement (e.g., nanoparticles), as well as quality-control issues and conservation strategies concerning these valuable natural resources.

Guest Editor

Prof. Dr. Adeyemi Oladapo Aremu

About the Journal

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Editor-in-Chief

Prof. Dr. Dilantha Fernando
Department of Plant Science, University of Manitoba, Winnipeg, MB
R3T 2N2, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
