

## Special Issue

# New Insights in the Research of Blueberry

### Message from the Guest Editors

The production of blueberries has been growing worldwide, driven by their health benefits, due to the presence of phenolic compounds, anthocyanins, and vitamins, which confer high antioxidant power to the fruits. Research has continuously proven that the production and quality of blueberries are affected by environmental and management conditions, making it necessary to deepen studies regarding new varieties, new production systems, and new cultivation areas. This Special Issue of *Plants* will highlight the new advances in plant propagation, training systems, fertilization, container production, pest and disease control, harvest and post-harvest of blueberries, 4.0 fruit culture, AI and sensors.

### Guest Editors

Dr. Ricardo Antonio Ayub

Department of Crop Science and Plant Health, State University of Ponta Grossa, Ponta Grossa 84030-900, Paraná, Brazil

Dr. Luiz Antonio Biasi

Department of Crop Science and Plant Health, Federal University of Paraná, Curitiba 80035-050, Paraná, Brazil

### Deadline for manuscript submissions

closed (20 March 2025)

## About the Journal

### Message from the Editor-in-Chief

*Plants* is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
