# **Special Issue**

# **Advances in Jujube Research**

## Message from the Guest Editors

This Special Issue entitled "Advances in Jujube Research" is dedicated to research on jujube biology, genetics and breeding, ecology and post-harvest treatment and nutrition, but also other aspects of the life of these plants. Jujube (Ziziphus) is an outstanding multipurpose economic plant with great potential in drought and marginal districts. Chinese jujube (Z. jujuba Mill.) and Indian jujube or ber (Z. mauritiana Lam.) are two main economically valuable species. Commercial and experimental cultivation of jujube takes place mostly in China, Pakistan, India, Iran, Korea, Japan, Australia, USA, Italy, Romania, Israel, etc. However, iuiube is still an unknown and underutilized horticultural plant in the world. This Special Issue aims to gather the current knowledge on various aspects in jujube research. We invite researchers to submit review articles, full-length original papers, communications, short overviews, or comments presenting the various aspects of jujube biology, genetics and breeding, ecology and post-harvest treatment, nutrition and so on.

# **About the Journal**

## Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

### Editor-in-Chief

Prof. Dr. Dilantha Fernando

Department of Plant Science, University of Manitoba, Winnipeg, MB R3T 2N2, Canada

#### **Author Benefits**

### **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

## **Journal Rank:**

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
