

Special Issue

Molecular Regulation and Genetic Improvement of Oilseed Crops

Message from the Guest Editor

Oil is one of the three major nutrients necessary for human beings, and it is also an important industrial raw material. It is produced by oilseed crops, mainly oil palm, rape, soybean, peanut, sunflower, etc. In recent years, with the rapid progress of molecular biology, multi-omics sequencing, and gene-editing technology, these crops have received much important progress regarding genetic improvement and the molecular understanding of important traits. In order to introduce these results, the editorial department of *Plants* is preparing this Special Issue, "Molecular Regulation and Genetic Improvement of Oilseed Crops". The editorial office of *Plants* has entrusted me as guest editor, and I welcome experts in related fields to contribute.

Guest Editor

Dr. Jiaqin Shi

Oil Crops Research Institute of the Chinese Academy of Agricultural Sciences, Wuhan 430062, China

Deadline for manuscript submissions

30 November 2026

About the Journal

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Editor-in-Chief

Prof. Dr. Dilantha Fernando
Department of Plant Science, University of Manitoba, Winnipeg, MB
R3T 2N2, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
