

Special Issue

Bioprospecting of Neglected and Underutilized Wild Plants for Nutritional and Ethnomedicinal Significance

Message from the Guest Editors

The current Special Issue on *“Bioprospecting of Neglected and Underutilized Wild Plants for Nutritional and Ethnomedicinal Significance”* aims to encourage the bioprospecting of neglected and underutilized wild plants from various agroclimatic regions of the world for dietary diversification and also to explore their ethnomedicinal importance for a good quality of life and human wellbeing in resource-poor nations.

Guest Editors

Dr. Purushothaman Chirakkuzhyil Abhilash

Prof. Dr. Rodomiro Ortiz

Dr. Milan Stankovic

Prof. Dr. Othmane Merah

About the Journal

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, and conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Editor-in-Chief

Prof. Dr. Dilantha Fernando
Department of Plant Science, University of Manitoba, Winnipeg, MB
R3T 2N2, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
