

## Special Issue

# Nutrients Uptake, Transport, and Function in Plant Metabolism

### Message from the Guest Editors

Each type of plant is unique and has an optimum nutrient range as well as a minimum requirement level, which can trigger deficiency or toxicity. In this Special Issue, we aim to delve into the interactions between micro- and macronutrients in plants. The scope of this Special Issue encompasses a wide array of topics, namely the implications of the photosynthetic and respiratory metabolisms and of the photoassimilate mobilization to fruits and grains.

### Guest Editors

Prof. Dr. Fernando Lidon

Departamento de Ciências da Terra, Faculdade de Ciências e Tecnologia, Campus da Caparica, Universidade Nova de Lisboa, 2829-516 Caparica, Portugal

Prof. Dr. Maria Manuela Abreu da Silva

Department of Earth Sciences, Faculty of Sciences and Technology, New University of Lisbon, Caparica, Portugal

### Deadline for manuscript submissions

closed (20 December 2024)

## About the Journal

### Message from the Editor-in-Chief

*Plants* is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
