

## Special Issue

# Identification and Molecular Characterization of Plant Virus

### Message from the Guest Editor

Ongoing technological advances in high-throughput sequencing and its wide adoption have led us to discoveries of numerous novel viral species. While a number of findings are related to established viral families, some are pieces of the puzzle that do not fall into place. That and the metagenomic nature of many studies raise a question of host affiliations and correctness of host assignment. Brief reports and research articles describing novel plant viruses and mixed infections, including infections of multiple strains, will be considered. Publications on the metagenomic analysis of plant samples, including viruses of plants and the associated organisms, are especially welcome in the Special Issue.

### Guest Editor

Dr. Igor Koloniuk

Department of Plant Virology, Institute of Plant Molecular Biology,  
Biology Centre of the Czech Academy of Sciences, v.v.i., 370 05 Ceské  
Budejovice, Czech Republic

### Deadline for manuscript submissions

closed (30 January 2022)

## About the Journal

### Message from the Editor-in-Chief

*Plants* is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

### Editor-in-Chief

Prof. Dr. Dilantha Fernando  
Department of Plant Science, University of Manitoba, Winnipeg, MB  
R3T 2N2, Canada

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
