

## Special Issue

# Advances in Plant Taxonomy and Floristic Diversity: Insights from the Mediterranean and Beyond

### Message from the Guest Editors

The journal *Plants* is organizing a Special Issue, "Advances in Plant Taxonomy and Floristic Diversity: Insights from the Mediterranean and Beyond," to enhance knowledge of plant taxonomy and flora in Mediterranean and surrounding regions. The Mediterranean, a major biodiversity hotspot, remains incompletely studied despite its vast plant diversity. Increasing human disturbance and climate change continue to drive biodiversity loss, making conservation efforts more urgent than ever. This issue invites scholars engaged in taxonomic research, including morphology, karyology, molecular phylogeny, ecology, and anatomy of critical or underexplored species. The Mediterranean region has seen numerous taxonomic discoveries, continuously expanding scientific knowledge. This Special Issue welcomes researchers in plant taxonomy and phylogeny who apply modern and innovative approaches, contributing to a deeper understanding of biodiversity and its conservation.

### Guest Editors

Prof. Dr. Salvatore Brullo

Department of Biological, Geological and Environmental Sciences,  
University of Catania, 95125 Catania, Italy

Dr. Salvatore Cambria

Department of Biological, Geological and Environmental Sciences,  
University of Catania, 95125 Catania, Italy

### Deadline for manuscript submissions

closed (31 December 2025)

## About the Journal

### Message from the Editor-in-Chief

*Plants* is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, and conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
