

Special Issue

Emerging Trends in Sustainable Processing and Technology of Plant-Derived Foods

Message from the Guest Editors

The world population's demand for food is growing. Obtaining food in adequate quantity and quality is fundamental to meet the worldwide demand. Thus, research related to new technologies of plant-derived foods is extremely relevant. Another factor that should be considered is the viability and sustainability of these new technologies. This Special Issue will present the latest results of investigations and findings related to emerging technologies in the sustainable processing and technology of plant-derived foods. Topics of interest include the following:

- non-thermal methods of processing plant-derived foods;
- preparation of fermented and non-fermented beverages;
- new trends for packaging fruits and vegetables;
- economic analysis and sustainability of new technologies of plant-derived foods.

Other topics related to the new processing technologies of plant-derived foods will be considered for publication.

About the Journal

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Editor-in-Chief

Prof. Dr. Dilantha Fernando

Department of Plant Science, University of Manitoba, Winnipeg, MB
R3T 2N2, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
