

Special Issue

Effect of Light on Plant Growth and Development

Message from the Guest Editors

This Special Issue welcomes original research articles and comprehensive reviews that investigate the multifaceted roles of light in plant growth and development and light-induced plant defense resistance. We particularly encourage submissions exploring the regulatory mechanisms of light in plant defense responses against biotic and abiotic stresses, with a focus on signal transduction pathways and physiological adaptations under varying light conditions.

Guest Editors

Dr. Youxin Yang
Prof. Dr. Feng Wang
Dr. Yong Zhou

Deadline for manuscript submissions

30 September 2026

About the Journal

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, and conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Editor-in-Chief

Prof. Dr. Dilantha Fernando
Department of Plant Science, University of Manitoba, Winnipeg, MB
R3T 2N2, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
