

# Special Issue

## Plant Behavioral Ecology

### Message from the Guest Editor

Plant behavioral ecology is a rapidly emerging field focused on our understanding of the adaptive behaviors and responses exhibited by plants in their interactions with other organisms and their environment. This Special Issue aims to summarize recent progress in plant behavior, encompassing all possible behavioral domains. We are particularly interested in works that explore the evolutionary causes of plant adaptive responses based on laboratory and/or field data, although reviews and innovative ideas are also welcomed.

### Guest Editor

Prof. Dr. Pavol Prokop

1. Department of Environmental Ecology and Landscape Management,  
Faculty of Natural Sciences, Comenius University, 842 15 Bratislava,  
Slovakia

2. Institute of Zoology, Slovak Academy of Sciences, 845 06 Bratislava,  
Slovakia

### Deadline for manuscript submissions

closed (30 April 2025)

## About the Journal

### Message from the Editor-in-Chief

*Plants* is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
