

# Special Issue

## Plant Tissue Culture V

### Message from the Guest Editor

Plant tissue culture has led to breakthroughs in understanding and applying the fundamental knowledge gained to harness more benefits from plants. It is an important technique that involves growing the cells, tissues, and organs of plants on artificial media in a controlled environment. Several in vitro culture methods have been used to study and improve our knowledge of basic and advanced areas of plant biology, such as biochemistry, cytology, embryology, molecular biology, and physiology. This Special Issue will cover various aspects of plant tissue culture, such as germplasm conservation, genetic manipulation, morphogenesis, somatic embryogenesis, nutrition, large-scale clonal propagation, and the production of disease-free plants and useful metabolites.

### Guest Editor

Dr. Iyyakkannu Sivanesan

Department of Environmental Health Science, Human and Eco Care Center, Konkuk University, 1, Hwayang-dong, Gwangjin-gu, Seoul 05029, Republic of Korea

### Deadline for manuscript submissions

closed (31 August 2025)

## About the Journal

### Message from the Editor-in-Chief

*Plants* is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, and conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
