

Special Issue

Plant Cell Wall Dynamics in Plant Growth and Stress Response

Message from the Guest Editors

This Special Issue on “Plant Cell Wall Dynamics in Plant Growth and Stress Responses” in *Plants* brings together a collection of primary research papers and targeted reviews of plant cell wall structure and function, and the dynamic changes that can accompany responses to both biotic and abiotic stresses. It provides a snap-shot of contemporary plant cell wall biology with the goal of targeting new areas of discussion and investigation.

About the Journal

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Editor-in-Chief

Prof. Dr. Dilantha Fernando
Department of Plant Science, University of Manitoba, Winnipeg, MB
R3T 2N2, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
