

## Special Issue

# Plasmodesmata and Intercellular Movement

### Message from the Guest Editor

This Special Issue, on the “Plasmodesmata and Intercellular Movement”, offers an open access forum for bringing together investigators with different approaches in studying, not only their biogenesis, composition, structure, and regulation, but also non-cell autonomous function of signaling micromolecules and macromolecules, such as transcription factors and RNAs. We encourage scientists to contribute original research papers and reviews dedicated to the plasmodesmata and intercellular movement of cellular components.

---

### Guest Editor

Prof. Dr. Jae-Yean Kim

Division of Life Science, Gyeongsang National University, 27-306, 501 Jinju-Daero, Jinju, Gyeongnam 660-701, Republic of Korea

---

### Deadline for manuscript submissions

closed (30 October 2017)

## About the Journal

### Message from the Editor-in-Chief

*Plants* is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
