

## Special Issue

# Plant Phylogeography and Conservation Genetics

### Message from the Guest Editors

Phylogeography is an integrative study that focuses on the historical processes between geographic distributions and genealogical lineage. Conservation genetics aims to understand the dynamics of genes in populations and decrease the risk of population or species extinctions. This Special Issue aims to serve as a platform to highlight new research on (1) understanding plant phylogeographical patterns and subsequent studies on microevolution and phylogeographical history based on molecular data; (2) evaluating the genetic influences that cause plant species rarity, endangerment, and extinction; and (3) developing the conservation strategy based on phylogeographical evidence and conservation genetics.

### Guest Editors

Prof. Dr. Yu-Chung Chiang

Department of Biological Sciences, National Sun Yat-sen University, Kaohsiung 80424, Taiwan

Prof. Dr. Junaldo A. Mantiquilla

Department of Biological Sciences and Environmental Studies, College of Science and Mathematics, University of the Philippines Mindanao, Mintal, Davao City 8022, Philippines

### Deadline for manuscript submissions

closed (15 September 2022)

## About the Journal

### Message from the Editor-in-Chief

*Plants* is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
