

Special Issue

Plant Tissue Culture

Message from the Guest Editor

Plant tissue culture has led to breakthroughs in understanding and applying the fundamental knowledge gained towards harnessing more from plants. It is an important technique that involves growing cells, tissues, and organs of plants on artificial media under a controlled environment. Several in vitro culture methods have been used to study and improve our knowledge on basic and advanced areas of plant biology, such as biochemistry, cytology, embryology, molecular biology, and physiology. This Special Issue is aimed at covering various aspects of plant tissue culture, such as germplasm conservation, genetic manipulation, morphogenesis, somatic embryogenesis, nutrition, large-scale clonal propagation, and the production of disease-free plants and useful metabolites.

Guest Editor

Dr. Iyyakkannu Sivanesan

Department of Bioresources and Food Science, Institute of Natural Science and Agriculture, Konkuk University, 1 Hwayang-dong, Gwangjin-gu, Seoul 05029, Republic of Korea

About the Journal

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Editor-in-Chief

Prof. Dr. Dilantha Fernando
Department of Plant Science, University of Manitoba, Winnipeg, MB
R3T 2N2, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
