

## Special Issue

# Postharvest Physiology of Fruit and Vegetables-the Second Edition

### Message from the Guest Editors

Fruits and vegetables constitute an essential part of human nutrition as important sources of macro- and micronutrients. The production and quality of fruits and vegetables are highly dependent on the physiology of the plant, which is highly influenced by its immediate environment. This Special Issue of *Plants* welcomes research papers that focus on the underlying physiological and molecular mechanisms that drive the manifestation of desired and undesired quality traits after harvest. Studies concerning the use of omics platforms (e.g., genomics and epigenetics, transcriptomics, metabolomics, and proteomics), comprehensive phenotyping, biochemical assays, and modeling are welcome.

### Guest Editors

Dr. Reinaldo Campos-Vargas

Centro de Estudios Postcosecha, Departamento de Producción Agrícola, Facultad de Ciencias Agronómicas, Universidad de Chile, Santiago 8831314, Chile

Dr. Romina Pedreschi

School of Agriculture, Faculty of Agricultural and Food Sciences, Pontificia Universidad Católica de Valparaíso, Calle San Francisco s/n, La Palma, Quillota, Chile

### Deadline for manuscript submissions

closed (20 November 2022)

## About the Journal

### Message from the Editor-in-Chief

*Plants* is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

### Editor-in-Chief

Prof. Dr. Dilantha Fernando

Department of Plant Science, University of Manitoba, Winnipeg, MB  
R3T 2N2, Canada

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
