# Special Issue

# Selected Papers from the XXIII Meeting of the Spanish Society of Plant Physiology and the XVI Hispano-Portuguese Congress of Plant Physiology (FV2019)

### Message from the Guest Editors

This Special Issue will comprise selected, extended papers from the XXIII Meeting of the Spanish Society of Plant Physiology and the XVI Hispano-Portuguese Congress of Plant Physiology (FV2019) to be held in Pamplona, Spain, on 26-28 June 2019 (https://www.fv2019.org). Selected contributions will address a wide range of topics in plant biology, covering very different aspects presented and discussed at the meeting, such as metabolism and biochemistry, applied plant physiology and molecular breeding, ecophysiology and climate change, interaction of plants with other organisms, photosynthesis, crop production, abiotic stress, biofertilizers, biostimulants and mineral nutrition, systems biology and omics, growth and development, signaling and plant biotechnology. Contributors are welcome to submit original research, method, opinion, and review articles related to the topics covered in FV2019. Submissions to this Special Issue are accepted from the conference attendees and their co-authors. Papers selected for this Special Issue will be subjected to a rigorous peer-review procedure with the aim of rapid and wide dissemination of research results, developments, and applications.

### **Guest Editors**

Dr. Jorge Lozano-Juste

Dr. Javier Pozueta-Romero

Dr. Ainhoa Martínez-Medina

Dr. Antonio Díaz-Espejo

Dr. J. Carlos del Pozo

## Deadline for manuscript submissions

## **About the Journal**

### Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

#### Editor-in-Chief

Prof. Dr. Dilantha Fernando

Department of Plant Science, University of Manitoba, Winnipeg, MB R3T 2N2, Canada

#### **Author Benefits**

#### **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

### **Journal Rank:**

JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
