Message from the Guest Editor

Dear Colleagues,

High-performance resins and composites are important materials for aerospace, traffic, and microelectronics fields, among others. In this Special Issue, we aim to discuss research on high-performance resins and composites such as epoxy resin, bismaleimide resin, polyimide resin, cyanate ester resin, phthalonitrile resin, polytriazole resin, organic/inorganic hybrid resins, and their composites in terms of their advantages and features, difficulties and key technologies to be solved, as well as future development trends and directions.

This Special Issue is devoted to the most recent research on these topics, covering all aspects concerning the modification and application of high-performance resins and composites.

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (*Polymer Science*) / CiteScore - Q1 (*Polymers and Plastics*)
