### Message from the Collection Editor

Polymeric hydrogels are finding a plethora of interesting applications, for the environment, removing pollutants from water as well as from the air; in biomedical applications, where they can be used as scaffolds for cell proliferation; and in other specific applications such as drug delivery. The aim of this Special Issue is to collect the most recent advances in the field of hydrogels and their synthesis, characterization and applications.

Prof. Dr. Marco Sangermano

## Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
