Polymer/Graphene for High-Performance Lithium Ion or Sodium Ion Batteries

Guest Editor:

Prof. Dr. Wei-Ren Liu
Department of Chemical Engineering, Chung Yuan Christian University, Chung Li District, Taoyuan City 32023, Taiwan

Deadline for manuscript submissions:
closed (31 October 2020)

Message from the Guest Editor

Graphene is a two-dimensional carbon allotrope with a hexagonal lattice structure. It has emerged as a promising material due to its exceptional physical and chemical properties, outstanding electric, thermal conductivity, and higher specific surface area. Thus, graphene-based materials have been widely and successfully used on energy storage applications. The aim of this Special Issue "Polymer/Graphene for High-Performance Lithium Ion or Sodium Ion Batteries" is to highlight advanced studies in the field of graphene/polymer composite for Li ion batteries or Na ion batteries, from fundamental aspects through to applications. The scope may include but not exclusively be limited to anode, cathode or electrolytes.

We think you could make an excellent contribution on our journal and would like to invite your submission.

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 5.0.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.
Journal Rank: JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
