Deadline for manuscript  
submissions:

**closed (15 November 2023)**

### Message from the Guest Editor

Dear Colleagues,

Starch and cellulose are going to play a major role in the development of bioplastics. In their pristine form, these biopolymers result in bioplastics with inferior properties. Therefore, innovative ways to modify these biopolymers without losing their biodegradability and overall sustainability is a topic of growing significance. This Special Issue is devoted to research covering all aspects of utilizing cellulose and starch for bioplastics, packaging, and other material applications.

## Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
