

## Special Issue

# Thermomechanical Properties of Micro and Nano Reinforced Polymer Composites

### Message from the Guest Editor

The aim of this issue is to bring together important findings by researchers in the field of micro- and nanocomposite materials regarding the relationship between the structure of polymer composites and thermomechanical characteristics. However, other attributes are also envisaged, such as the interface and interphase at polymer-matrix-reinforcing surfaces, adhesion to different substrates, or wetting characteristics. These research papers will contribute to interdisciplinary knowledge in chemistry, mechanics, materials science, and engineering. The goal is to improve the applications of polymeric micro- and nanocomposites such as coatings, structural materials, aeronautic components, and materials for electronics or automotive through the dissemination of valuable expertise from different domains of research.

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für Polymermaterialien und Polymertechnologie, Universität Potsdam, Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPIus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
