

## Special Issue

# State-of-the-Art Polymer Science and Technology in Chile (2022,2023)

### Message from the Guest Editors

Polymer and macromolecular science and technology is one of the most important and representative research fields for the scientific community in Chile. This area includes both fundamental and applied studies of polymers and macromolecules, including polymer innovations and research applications in science, technology, engineering, and medicine. This Special Issue aims at collecting an overview of polymer, macromolecular sciences, and technology in Chile.

Research topics include but are not limited to: polymer composites and nanocomposites; biopolymers; polymers with environmental applications; advanced characterization of polymers; innovative polymer processes; modeling of polymer and processing; among others.

The only limitation is that the main part of the study has to have been carried out in Chile or by Chilean researchers with international collaborators.

We do hope that this Special Issue can represent the current state of polymer and macromolecular science and technology in Chile and give an image of what is carried out in this field in our country.

---

### Guest Editors

Prof. Dr. Bernabé L. Rivas Quiroz

Departamento de Polímeros, Facultad de Ciencias Químicas,  
Universidad de Concepción, Concepción 4030000, Chile

Dr. Julio Sánchez Poblete

Departamento de Ciencias del Ambiente, Facultad de Química y  
Biología, Universidad de Santiago de Chile (USACH), Santiago 9170022,  
Chile

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
