

Special Issue

Green Polymeric Materials for Geological Engineering and Geotechnical Engineering

Message from the Guest Editors

New functional materials have demonstrated substantial demand and widespread applicability in the domains of geological and geotechnical engineering, notably in the fields of geological exploration, engineering construction, ecological remediation, and environmental governance. Among them, green polymer materials have emerged as a pivotal focus of research and application, owing to their environmentally friendly properties and cost-effectiveness. Nevertheless, the intricate and arduous conditions prevalent in geological engineering and geotechnical engineering, coupled with stringent safety standards, necessitate green polymer materials to possess heightened performance capabilities. Therefore, research and development pertaining to green polymer materials has emerged as a hot issue and prominent field within geological engineering and geotechnical engineering.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
