

Special Issue

Advances in Bio-Based Polymer Composites for Dental Applications

Message from the Guest Editor

The growing demand for sustainable and biocompatible materials is driving innovation in dental healthcare. This Special Issue will focus on the latest advances in bio-based polymer composites, which offer a promising alternative to conventional synthetic materials due to their renewable origins, reduced environmental impact, and potential for excellent biocompatibility and tailored functionality. This Special Issue welcomes original research and reviews that bridge material science with clinical dentistry, aiming to accelerate the development of high-performance, sustainable, and patient-friendly dental solutions.

About the Journal

Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.9.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Alexander Böker

Fraunhofer-Institut für Angewandte Polymerforschung, Lehrstuhl für Polymermaterialien und Polymertechnologie, Universität Potsdam, Geiselbergstraße 69, 14476 Potsdam-Golm, Germany

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
