

## Special Issue

# Characterization and Application of Molecularly Imprinted Polymers

### Message from the Guest Editor

Molecularly imprinted polymers are highly cross-linked porous polymers that have antibody-like affinity for specific molecules. With the rapid development of society, molecular imprinting technology has been applied in many fields due to its excellent properties such as easy synthesis, high selectivity, high biocompatibility, and thermal stability. This Special Issue focuses on the research and application of molecular imprinting polymers, including, but not limited to, the following areas: synthesis methods of molecularly imprinted polymers; applications of molecularly imprinted polymers; the development of molecular imprinting technology, etc. Scholars are welcome to actively contribute.

### Guest Editor

Dr. Xueqin Li

Key Laboratory for Green Processing of Chemical Engineering of Xinjiang Bingtuan, School of Chemistry and Chemical Engineering, Shihezi University, Shihezi 832003, China

### Deadline for manuscript submissions

closed (1 July 2025)

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
