

## Special Issue

# Polymer Composites for Dental Applications

### Message from the Guest Editor

As one of the most popular restorative materials, polymer-based composites have been widely used in dentistry for nearly six decades. The ongoing enhancements of these materials have extended their indications for use and contributed to excellent clinical results in terms of aesthetics and function. However, it is clear from the literature that there are still limitations in the contemporary dental polymer-based composites, and therefore, there is a need to further improve the property of materials. Based on these facts, this Special Issue is intended to cover the topic of dental polymer-based composites from the most recent research and development perspectives. It is our pleasure to invite you to contribute to this Special Issue. Research articles, review articles, and short communications are welcome.

### Guest Editor

Dr. Sufyan Garoushi

Department of Biomaterials Science and Turku Clinical Biomaterials Center—TCBC, Institute of Dentistry, University of Turku, Turku, Finland

### Deadline for manuscript submissions

closed (25 October 2024)

## About the Journal

### Message from the Editor-in-Chief

Since its foundation in 2009, *Polymers* has developed into an internationally renowned, extremely successful open access journal. The editorial team and the editorial board dedicatedly combine open-access publishing and high-quality rigorous peer reviewing. The performance of the journal has proven this strategy to be well-suited and highly successful. This is reflected in the increasing impact factor of *Polymers*, the most recent one being 4.7.

I would like to invite you to contribute to the success of the journal by sending us your high quality research papers. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Alexander Böker

Lehrstuhl für Polymermaterialien und Polymertechnologie, University of Potsdam, 14476 Potsdam-Golm, Germany

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubMed, PMC, FSTA, CAPlus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q1 (Polymer Science) / CiteScore - Q1 (General Chemistry)
